

CH0024 Construction of Reservoir Clearing North Bank

1. Package Description

Scope of Work Summary:

This contract includes clearing 756 Ha of merchantable and non-merchantable wood on the North Bank in the ice and stickup zones of the Muskrat Falls Reservoir. It also includes clearing forest access road rights-of-way to construct 64.8 km of road and 13 ha of storage yard areas.

- Construct 64.8 km of forest access roads along the North Bank of the reservoir.
- Install 39 stream crossings which include 17 temporary bridges and 22 culverts >1000 mm in diameter.
- Clear and prepare 13 ha of storage yard areas.
- Mechanical harvesting of merchantable & non-merchantable wood.
- Process merchantable wood at roadside to remove limbs and tops.
- Truck merchantable wood to specified storage yards.
- Clear and mulch non-merchantable wood, limbs and tops, deadfalls and shrubs.
